Worksheet for Any Size Tube Bag

How to Make: https://www.auntannie.com/BoxesBags/TubeBag/patterm/

Fill-in width, height and depth of desired bag then do arithmetic to determine paper size

Width ____ x 2 = ____ + ½ = ____ *(paper width)*

Height ____ + Depth ____ = ____ + 1½ = ____ *(paper height)*

For example...

Width 8 x 2 = 16 + ½ = 16½" *(paper width)*

Height 10 + Depth 2½ = 12½ + 1½ = 14 *(paper height)*

Fill-in width, height and depth and calculated paper width and height

Paper width ____"

Paper height ____"
